EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Patricia M. Mathers on Tuesday July 5, 2005.

The application has been amended as follows: In claim 1 subsection d) "a rotor" has been replaced with --said rotor--.

2. The following is an examiner's statement of reasons for allowance:

Claim 1 has been found to be allowable over the prior art of record because the prior art fails to teach or suggest a method of liquefying snow and/or ice comprising: providing a melting reservoir for receiving snow and/or ice and maintaining a water bath in the melting reservoir, providing a rotor-stator device within the melting reservoir and the rotor-stator device having a rotor with rotor discharge apertures and a stator with stator apertures, in combination with the remaining limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
